Statistics Sweden's government commission for the Third Sector

To provide statistics regarding the Third Sector according to UN statistical system of satellite accounts for non-profit organizations

Statistics Sweden are to report:

- existing economic data about organizations in the Third Sector
- information about the relationship between the public sector and Third Sector organizations
- existing statistics on the Swedish population's participation in Third Sector organizations
- where possible, information that falls outside current statistics about the Third Sector

Primary sources

Five surveys

- Non-profit Institutions Serving Households
- Structural Business Statistics
- The Church of Sweden
- Revenues and Expenditure for Multi-dwelling Buildings
- Programme for the International Assessment of Adult Competencies (PIAAC)

Statistical reporting

Publication

The Civil Society (2011, 2012, 2014)

Satellite Accounts for the Third Sector

First publication in the end of 2015

Reporting the Satellite Accounts

Sector	Non-profit non-governmental organizations, total	Non-financial corporations	Non-financial subsidiaries to non-profit organizations
ICNPO			
Culture and recreation			
Education and research			
Health			
Social services			
Environment			
Development and housing			
Law, advocacy and politics			
Philanthropic intermediaries and voluntarism promotion			
International			
Religion			
Business and professional associations, unions			
Not elsewhere classified			

Implementing the UN Handbook

Statistics Sweden has:

- identified relevant surveys covering statistics concerning the Third Sector
- adapted the survey Non-profit Institutions Serving Households to ICNPO
- developed the frame population for the Third Sector
- adapted the reporting of foundations
- started the process of developing Satellite Accounts for the Third Sector

Implementing the ILO Manual

- PIAAC and surveys of living conditions
- Collaboration with Swedish researchers regarding valuation of volunteer work in monetary terms
 - Opportunity cost
 - Replacement cost

Barriers

- Only one survey is adapted to ICNPO
- High non-response rate
- No obligation by law for organizations or individuals to supply to requested information
- Resources

Steps to overcome barriers

- Investigate the possibility to adapt other surveys to ICNPO
- Continue to develop the use of administrative data
- Develop the collaboration with umbrella organizations in order to increase the response rate

The future

Continue the collaboration with researchers and develop our reporting of:

- valuation of volunteer work
- frame population and ICNPO coding
- Satellite Accounts

Thank you for listening!
